

# + Service

At Aquatic Analytics, we believe in customer service. Your needs are the most important part of the water testing equation. That's why we offer personal attention and competitive turn-around times, and always produce accurate, reliable results.

We understand your needs are unique, so we match you with your own personal lab representative to ensure your specific needs are met. Whether you like to correspond by email, fax or phone, we fit into your business model. You don't have to fit into ours.

Lydia Mandel & Samantha Miller

We're here to make your job easier and hassle-free.

We work to meet and exceed your expectations by offering these additional white-glove services:

- Courier Services
- Auto-Reminder Emails
- Regulatory Agency Reporting
- Personal Lab Representative Service
- Rush Job & Weekend Availability
- Full-Spectrum Water Testing Services

## Science + Service = Aquatic Analytics

We are a small lab.

We are a women-owned business.

We're local.

We have 50 years of combined scientific experience to ensure your accurate water sample test results.

And we would like to be an extension of your team.

Let us be a part of the solution.  
**Your solution.**

## Uniting Service with Science

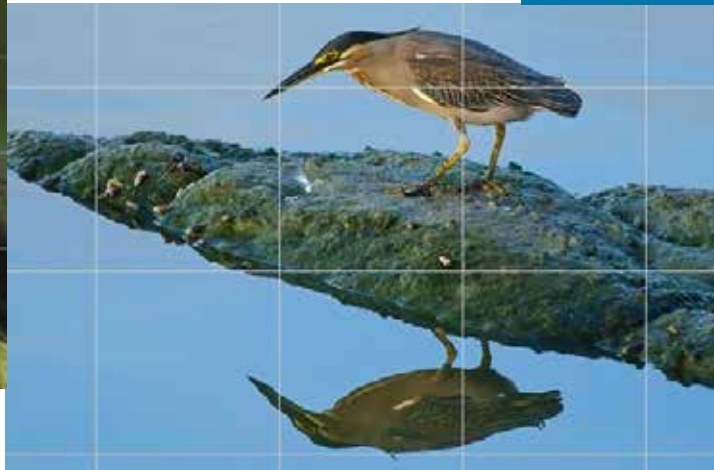

*Part of the solution.*  
*Your solution.*

Science +

Water sample testing complete with **personal attention**, competitive turn-around times and **accurate results**.

## Water Testing

Do you need accurate, reliable water sample test results provided in a reasonable timeframe? Are you tired of your current water testing vendor treating you like a number? Now you can have accurate testing, competitive turn-around times and the personal attention you require with **Aquatic Analytix**, located in Summerville, South Carolina.

We pride ourselves on our hassle-free, customer-service oriented approach to water testing. We provide accurate scientific results because we're a qualified team with the right equipment, ready to meet and exceed your unique water testing needs. The Aquatic Analytix team offers the same experience and resources as the big labs, but we also understand there's a person behind every test order. That's why we focus on providing the personal attention you deserve, plus the competitive turn-around times you require.

Aquatic Analytix offers a wide range of water sample testing services for both commercial and residential sectors.

### Commercial

- Industrial water discharges permitted under the National Pollutant Discharge Elimination System
- Drinking water facilities regulated by the Safe Drinking Water Act
- Construction site and storm water run-off samples.

### Residential

- Bacteriological tests
- Water softener testing
- Water quality tests to determine the cause of problems such as discolored fixtures or undesirable water taste, odor, or appearance
- Water quality testing for real estate transactions
